ATTENTION CUSTOMER: STATEMENT OF LIMITED WARRANTY

GP Limited warrants to the original purchaser only, the Quick Set® Pool against defects in material and workmanship for 180-days from the date of purchase. Original Purchaser must retain proof of such purchase in the form of a store sales receipt and must produce such upon request by GP Limited or its customer service representative, General Foam Plastics Corporation at (800) 813-0206.

If the unit is found to have been consumer damaged or abused, it is not covered by the limited warranty. If this is the case, you will be advised of the cost of replacement part(s), or the need to return damaged part(s) for warranty replacement.

This limited warranty is not valid if pool is used for commercial purposes or if the damage is caused by accident, act of God, consumer neglect or abuse, failure to properly follow disassembly and storage procedures, vandalism or improper use of chemicals. This limited warranty will also be voided if pool is not properly installed per instructions. This warranty does not hold GP Limited responsible for cost of installation, labor or transportation related to replacement of defective parts.

2 Read and Follow All Safety Information and Instructions.

Keep for Future Reference.

Failure to follow these warnings and instructions can result in serious injury or death to user, especially children.

 DANGER	
PREVENT DROWNING Watch children at all times. Observe all Safety Rules.	NO DIVING! NO JUMPING! Shallow Water - You can be permanently injured.

 WARNING	
DO NOT SIT ON OR LAY OVER POOL WALL You can be permanently injured	AVOID ENTRAPMENT Stay away from suction fittings - You may drown

1. Children, especially children younger than five years, are at high risk of drowning. Drowning occurs silently and quickly and can occur in as little as 2 in. (5 cm) of water.
2. Keep children in your direct sight, stay close, and actively supervise them when they are in or near this pool and when you are filling and emptying this pool.
3. When searching for a missing child, check the pool first, even if the child is thought to be in the house.
4. Very Important: Swimming pool barriers, which restrict access to the pool by small children, may be required by law. A barrier is necessary to provide protection against potential drowning and near drowning. Barriers are not a substitute for constant supervision of children. Check state or local laws and codes before setting up pool.
5. The use of artificial pool lighting is at the discretion of the pool owner. Lighting, when installed, should be in accordance with Article 680 of the National Electrical Code (NEC) or its latest approved edition and in consultation with a licensed electrical professional.
6. During nighttime pool use, artificial lighting shall be used to illuminate all safety signs, ladders, steps, deck surfaces and walks.
7. The floor of the pool shall be visible at all times from the outside perimeter of the pool.
8. Local building codes may require obtaining a building or electrical permit. Installer shall follow regulations on setback, barriers, devices and other conditions.
9. Post a list of emergency telephone numbers such as the nearest available police, fire, ambulance and/or rescue unit. These numbers are to be kept near the telephone, which is closest to the pool.
10. Toys, chairs, tables or similar objects that a young child could climb shall be at least four feet (4') [121.92 cm] from the pool. The pump filter system shall be positioned so as to prevent it being used as a means of access to the pool by young children. Do not leave toys inside pool when finished using, since toys and similar items might attract a child to the pool.
11. Basic lifesaving equipment, including one of the following should be on hand at all times:
 - * A light, strong, rigid pole (shepherds crook) not less than twelve feet (12') [365.76 cm] long.
 - * A minimum one-fourth inch (1/4") [6.35 mm] diameter rope as long as one and one half (1-1/2) times the maximum width of the pool or fifty feet (50') [15.24 meters], whichever is less, which has been firmly attached to a Coast Guard-approved ring buoy having an outside diameter of approximately fifteen inches (15") [38.1 cm], or similarly approved flotation device.
12. **Entrapment Avoidance:** There shall be no protrusions or other obstruction in the swimming area, which may cause entrapment or entanglement of the user. If a suction outlet cover is missing or broken, do not use the pool. Suction can cause body part entrapment, hair and jewelry entanglement, evisceration, or drowning. Repair or replace the suction outlet cover before allowing the pool to be used.

13. The pool is subject to wear and deterioration. If not maintained properly, certain types of excessive or accelerated deterioration can lead to failure of the pool structure that might release large quantities of water that could cause bodily harm and property damage.
14. Above ground / onground residential swimming pools are for swimming and wading only. No diving boards, slides or other equipment are to be added to an above ground / onground pool that in any way indicates that an above ground / onground pool may be used or intended for diving or sliding purposes.
15. Never allow horseplay, diving or jumping into or around the pool. Serious injury, paralysis or death, could result when this rule is disregarded. DO NOT ALLOW anyone to swim alone without supervision.
16. Safety signs shall comply with requirements of ANSI-Z535 and to use signal wording.
17. The pool is to be assembled by an adult; care should be taken in the unpacking and assembly of the pool, this pool may contain accessible potentially hazardous sharp edges or sharp points that are a necessary part of the function of the pool.
18. Become certified in cardiopulmonary resuscitation (CPR). In the event of an emergency, immediate use of CPR can make a lifesaving difference.
19. Keep all electrical lines, radios, speakers and other electrical appliances away from the pool.
20. Do not place pool near or under overhead electrical lines.

NOTICE: CUSTOMERS THAT PURCHASE POOLS MAY BE REQUIRED BY LOCAL OR STATE LAW TO INCUR ADDITIONAL EXPENSES WHEN INSTALLING A POOL, IN ORDER TO COMPLY WITH STATE OR LOCAL LAWS REGARDING FENCING AND OTHER SAFETY REQUIREMENTS. CUSTOMERS SHOULD CONTACT THEIR LOCAL BUILDING CODE ENFORCEMENT OFFICE FOR FURTHER DETAILS.

CONSUMER AWARENESS BOOKLETS

Contact: U.S. Consumer Product Safety Commission at www.CPSC.gov/cpscpub/pubs/pool/pdf, Pub. #362 “Safety Barrier Guidelines for Home Pools”.

Contact: ASSOCIATION OF POOL & SPA PROFESSIONALS (formerly NSPI) at - www.apsp.org/164/index.aspx

These titles are now available: “The Sensible Way To Enjoy Your Aboveground / Inground Swimming Pool”, “Children Aren’t Waterproof”, “Pool and Spa Emergency Procedures For Infants’, Layers of Protection”, and the “ANSI / NSPI-8 Model Barrier Code for Residential Swimming Pools, Spas, and Hot Tubs”.

DANGER:

Competent supervision and knowledge of the safety requirements
is the only way to prevent drowning or permanent injury
in the use of this product!
Never leave young children unattended.

FRAME POOL SETUP INSTRUCTION SHEET

SITE PREPARATION

WARNING - VERY IMPORTANT!

- Site must be level. **FAILURE TO DO SO MAY CAUSE POOL COLLAPSE.**
- The pool must be assembled on a smooth and level site of firm soil that is free of stones, gravel, sticks, black-top or other oil base compounds. Do not install pool on a wooden deck or any type of wooden surface.
- **FAILURE TO FOLLOW THE INSTRUCTIONS BELOW WILL CAUSE POOL TO COLLAPSE AND WILL VOID THE WARRANTY!**

1. Select a level area, and completely remove all debris, twigs, stones, etc. DO NOT select an area under overhead electrical lines, trees or within 15 feet of a house, building, etc. The area should also be at least 10 feet away, and no more than 21 feet away, from a 110 volt AC outlet, protected by a Ground Fault Circuit Interrupter.
2. Contact your local utilities, checking that no underground cables, telephone lines, gas lines, etc. run beneath the area you have selected.

POOL INSTALLATION

WARNING: DO NOT overfill the pool and / or allow people to lay over or sit on pool wall doing so can cause permanent injury. **DRAIN** pool to the proper level after a heavy rain.

TIP: It will be much easier to install your pool if you unfold it and let it lay in direct sunlight for about 2 hours prior to installation. This will help to insure a wrinkle-free fit because the pool material will be more pliable allowing it to form into shape during installation.

1. Carefully unfold the Quick Set® pool and inspect seams for manufacturing defects. Lay the pool out flat on the ground, positioning the power filter mounting area of the pool wall so that it is 10 to 21 feet from the electrical outlet you plan to use for the pool pump. You should have at least three people to assist with the assembly of this pool.

FIG. 1

2. Locate the metal pipe and Tee Fittings for the frame section of the pool. The shorter pipe sections with the larger diameter and the pair of holes at both ends are the Horizontal Beams (91). The longer pipe sections with the smaller diameter and the Spring Pin (95) at one end are the Vertical Legs (94). Take the Horizontal Beams (91) and insert them into the pockets stitched along the top edge of the pool wall. Rotate it in the pocket so that the holes are on the top and bottom of the pipe protruding from each end of the pockets. Take one end of the pipe and insert it into a Tee Fitting aligning the holes with the holes in the Horizontal Beam. Do NOT install any of the Pins (93) at this time. Continue around the pool in either direction installing all of the Tee Fittings onto the Horizontal Beams. See Fig 1.

FIG. 2

3. When you get to the last connection, install the last Tee Fitting on the end of one of the beams. Lift up on both of the last two Beams in order to get them to insert into the Tee Fitting. Angle them towards each other and guide the Beam into the Fitting as you lower them both down together. See Fig. 2. This step may require two people. Now, begin inserting the Pins (93) down through the top of the Tee Fittings until the Pin snaps into place on the lower side of the Fitting as shown in Fig. 3.

FIG. 3

Should you encounter any problems, contact the Parts Department
at (800) 813-0206 between 8:00 a.m. and 5:00 p.m. Mon. thru Fri. Eastern Standard time.

4. Once the top frame is assembled, locate the Vertical Legs (94). The Vertical Leg sections will have a Spring Pin (95) pre-installed at the top end. First, insert the leg down through the belt that runs around the middle of the pool, see **Fig. 4**. Now, to connect them into the top frame, push the buttons in as you insert the Leg up into the Tee Fitting. Look through the hole in the Fitting as you insert and rotate the pipe until the buttons align with the holes and pop out, locking the leg in place. Finally, take one of the Leg Caps (96) and insert the bottom of the Vertical Leg into it until it stops.
 5. Go around and check all of the Fittings, Legs, and Beams for proper fit, making sure that all the Pins have been securely fastened in all of the holes. Grab the Vertical Legs at the bottom and gently pull them out making sure that they remain vertical and perpendicular to the top ring.
 6. Make sure the drain fitting is plugged securely and the cap is in place. Start filling the pool with water. NOTE: AFTER ABOUT 1-INCH OF WATER IS ON THE BOTTOM, STOP FILLING AND SMOOTH WRINKLES OUT OF THE BOTTOM OF THE POOL MAKING SURE THE POOLS BOTTOM IS FLAT AND ROUND EQUALLY IN ALL DIRECTIONS. SEE FIG. 4 BELOW
 7. NOTE: IF MORE THAN 1-2 INCHES OF WATER COLLECTS ON ANY ONE SIDE BEFORE THE POOL STARTS FILLING IN THE CENTER, THE POOL IS NOT LEVEL ENOUGH, AND MUST BE CORRECTED, SEE "SITE PREPARATION", PAGE 4. NOTE: THE WEIGHT OF THE WATER WILL PREVENT ANY ADJUSTMENT AFTER THIS POINT.
 8. Continue to check the Vertical Legs and pull them out at the bottom if necessary, making sure they remain vertical and perpendicular to the top ring.
9. Following the instructions under "Power Filter Installation" in the "Swimming Pool Filter System" owner's manual, begin installing your power filter unit according to it's manual.

FIG. 4

DISASSEMBLY AND STORAGE

- 1. GENERAL INFORMATION:** Pool must be stored if temperatures are expected to fall below 32°F.
 - A. All parts should be cleaned with a mild soap and lukewarm water only - DO NOT use detergent or hot water.
 - B. Make sure all parts are dry before storing to help prevent mildew from forming.
 - C. Store all parts in a dry heated area where temperatures do not go below 32° F or above 125° F.
 - D. Failure to follow the proper storage instructions could cause damage to pool parts and void warranty.
 - E. YOU MUST FOLLOW THE ASSEMBLY INSTRUCTIONS TO REASSEMBLE YOUR POOL NEXT SEASON. Pool site must be cleared and leveled again before setting up your pool.
- 2. QUICK-SET® POOL:**
 - A. To drain the pool, locate the drain plug on the outside of the pool wall and remove the drain cap. A standard garden hose will thread onto the drain fitting. Extend the hose to the area where the water is to be drained. When you have placed the garden hose where desired, the drain plug on the inside of the pool can be opened.
 - B. Once you have drained as much water as possible out of the pool, using the hose connected to the drain fitting, open the air valve and deflate the top ring. Then, carefully push the sides of the pool wall down to allow remaining water to run out.
 - C. Remove any remaining water as you wash and completely dry pool using a soft cotton cloth. Push the drain plug into the fitting and replace the cap.
 - D. Frame Pools: If your pool has metal frame work, disassemble those pieces by depressing the plastic buttons sliding those pieces apart or by removing the plastic pins holding them together again sliding those pieces apart, clean them and wipe them dry. If in doubt of proper disassembly refer to the pools set-up sheet and reverse those steps. Place them all together in a safe storage place for reassembly next season. Order replacement parts for any damaged, broken, or worn parts
 - E. Solar blankets, leaf covers, ladders, etc., should be cleaned and dried before storing

POOL COVER SAFETY

IF YOU ARE GOING TO USE A POOL COVER, SOLAR COVER OR SOLAR BLANKET, PLEASE READ THIS INFORMATION.

POOL COVER WARNING SOLAR COVER WARNING

SOLAR BLANKET WARNING

WARNING

AVOID DROWNING RISK

STAY OFF COVER - WILL NOT SUPPORT WEIGHT.

KEEP CHILDREN AWAY. CHILDREN OR OBJECTS CAN NOT BE SEEN UNDER COVER.

REMOVE STANDING WATER - CHILD CAN DROWN ON TOP OF COVER.

REMOVE COVER COMPLETELY BEFORE ENTRY OF BATHERS - ENTRAPMENT POSSIBLE.

NON-SECURED OR IMPROPERLY SECURED COVERS ARE A HAZARD.

FAILURE TO FOLLOW ALL INSTRUCTIONS MAY RESULT IN INJURY OR DROWNING.

THIS IS NOT A SAFETY COVER.

TYPE OC COVER CLASSIFICATION.

INSTALL COVER WITH LABELS FACING UP.

USE DRAWSTRING TO SECURE COVER TO POOL.

THIS COVER MEETS REQUIREMENTS DESCRIBED IN SPECIFICATION F-1346 (ASTM).
